

CURRICULUM VITAE

February 2013

Lluís Coll Mir

1. General

- Surname and name: COLL, Lluís
- Working place: Forest Sciences Center of Catalonia (CTFC)
- E-mail: lluis.coll@ctfc.cat Phone: 973 48 17 52 (ext. 267) Fax: 973 48 04 31

2. Degrees

- PhD in Forest Ecology. Blaise Pascal University (Clermont-Ferrand, France). 2003.
- MSc in Forest Biology –Henri Poincaré University (Nancy, France). 2000.
- BSc in Forestry. University of Lleida (Lleida, Spain). 1999.

3. Position

- Researcher (Ramon y Cajal Fellow) at the Forest Sciences Center of Catalonia, Spain (2009 – present).
- Associate Researcher at the Centre for Ecological Research and Forestry Applications (CREAF), Spain (2012 – present)
- Researcher (Juan de la Cierva Fellow) at the Forest Sciences Center of Catalonia, Spain (2006 – 2008).
- Postdoctoral researcher in the University of Quebec at Montreal (Canada) in the group headed by Prof. Christian Messier (2004 – 2005).

4. Project grants

4.1. Grants in national and international competitive calls

12. RESILFOR: Forest resilience in a changing context: the role of stand attributes, disturbance characteristics and management techniques. 2013. Funded by: Ministerio de economía y competitividad. AGL2012-40039-C02-01. Main researcher: Lluís Coll (CTFC). Amount: 80.000 €.
11. FORCLIMADAPT: Adaptation of Mediterranean woodlands to climate change effects. 2010-2013. Funded by: EU – Med Programme. Main researcher: Bruno Del Vita (Vésuve Park). Amount: 1.744.500 € (CTFC: 200.000 €).
10. Training program in Forest Complexity Modeling (FCM). 2011-2015. Funded by: Natural Sciences and Engineering Research Council of Canada. Main researcher: Christian Messier (UQAM). Amount: 150.000 \$CAN (2011).
9. El papel de las trayectorias históricas en los cambios de usos de suelo y sobre la biodiversidad en el Parque Nacional d'Aigüestortes i Llac de Sant Maurici (*Land-use changes and biodiversity in the Aigüestortes i Llac de Sant Maurici Natural Park*). 2011-2013. Funded by: Ministerio de Medio

- Ambiente y Medio Rural y Marino (200/2010). Main researcher: Dr Lluís Brotons (CTFC). Amount: 68.310 €.
8. Estudio de las poblaciones de tejo en la Sierra de Llaberia. Directrices para la conservación, gestión y análisis de su evolución (*Yew communities in the Sierra de Llaberia. Management orientations and conservation directives*). 2010. Funded by: Fundación Biodiversidad. Main researcher: Dr Jordi Camprodón (CTFC). Amount: 35.357 €.
 7. Dinámica de masas mixtas de coníferas: análisis de los principales procesos demográficos en un contexto de cambio global (DINAMIX) (*Conifer mixed-stand dynamics in the Pyrenees: analyzing the main demographic processes in a global change context*). 2010-2012. Funded by: Ministerio de Educación y Ciencia. AGL2009-13270-C02-01. Main researcher: Dr Lluís Coll (CTFC). Amount: 60.000 €.
 6. UNCIPLUS: Gestión multifuncional de las poblaciones de pino negro en el Pirineo catalán (*UNCIPLUS: Multifunctional management of mountain pine forests in the Catalan Pyrenees*). 2009-2012. Funded by: Interreg IV-A (UE). Main researcher (Spain): Dr Lluís Coll (CTFC). Amount: 612.017 € (CTFC: 140.507 €).
 5. Los montes españoles y el cambio global: amenazas y oportunidades (MONTES) (*Spanish woodlands and global change: threats and opportunities*). 2009-2012. Funded by: Ministerio de Educación y Ciencia. CONSOLIDER CSD2008-00040. Main researcher: Dr. Javier Retana (CREAF). Amount: 4.000.000 € (CTFC: 250.000 €).
 4. Restauración y gestión forestal (*Forest management and restoration*). 2008-2011. Funded by: Ministerio de Ciencia e Innovación (Programa de Proyectos Singulares y Estratégicos. PSE-310000-2008-1. Main researcher: Dr. Ricardo Alía (INIA). Amount: 209.809 €.
 3. Técnicas de producción y gestión de pino piñonero (*Pinus pinea*) para la producción precoz de piña: plantaciones injertadas como alternativa para la restauración de áreas degradadas y la generación de ingresos en comunidades rurales de Túnez (*Managing Pinus pinea for pine nut production as an alternative to restore degraded rural areas in Tunisia*). 2008-2011. Funded by: Programa de Cooperación Interuniversitaria e Investigación Científica entre España y Argelia, Egipto, Jordania, Marruecos y Túnez (PCI-Mediterráneo). C/9165/07. Main researcher: Dra Míriam Piqué (CTFC). Amount: 76.455 €.
 2. Cuantificación, caracterización y modelización del carbono orgánico en ecosistemas agro-silvo-pastorales a lo largo de gradientes climáticos y de uso: Aproximación multiescalar (CARBOCLUS) (*Carbon and nitrogen dynamics in agro-silvo-pastoral ecosystems along a climatic and land-use gradient*). 2007-2009. Funded by: Ministerio de Educación y Ciencia (Programa Nacional de Recursos y Tecnologías Agroalimentarias). SUM2006-0002-C02-01. Main researcher: Dra M.T. Sebastià (CTFC). Amount: 124.412 €.
 1. Factores climáticos y de crecimiento que determinan el secuestro de carbono en la carrasca (*Quercus ilex*) y el quejigo (*Quercus faginea*) en condiciones mediterráneas (*Effect of growth and climatic factors in carbon sequestration by Quercus ilex subsp. ballota and Quercus faginea in Mediterranean conditions*). 2007-2009. Funded by: Ministerio de Educación y Ciencia (Programa Nacional de Recursos y Tecnologías Agroalimentarias. SUM2006-00025-00. Main researcher: Dr Melchor Maestro (IPE-CSIC). Amount: 107.142 €.

4.2. R+D contracts with the private and the public sector

4. Las perturbaciones inducidas por los temporales en los bosques de Cataluña: evaluación de los daños (*Evaluating recent wind and snow damages in Catalanian forests and associated-management actions*).

2011. Funded by: Departament d'Agricultura, Ramaderia, Pesca, Alimentació I Medi Natural (Catalan government). Main researcher: Dr. Lluís Coll (CTFC). Amount: 21.318 €.

3. Asesoramiento científico-técnico para el diseño y establecimiento de una red experimental de bosquetes en masas irregulares de pino silvestre (*Establishment of a permanent network of monitoring plots in uneven-aged Pinus sylvestris stands subjected to different gap regeneration treatments*). Funded by: Centre de la Propietat Forestal. Main researcher: Dr Alvaro Aunós (UdL). Amount: 9.000 €.
2. Estudio del efecto de la estructura y la conformación del árbol en la susceptibilidad a los efectos del viento y la nieve de los bosques de pino negro y abeto del Pirineo oriental (*Analyzing the effect of stand structure in wind and snow damage in conifer mountain forests in the Eastern Pyrenees*). 2008. Funded by: Departament de Medi Ambient i Habitatge (Catalan government). Main researcher: Dr. Lluís Coll (CTFC). Amount: 27.827 €.
1. A preliminary guide for Mountain pine (*Pinus uncinata*) management in the Pyrenees. 2007. Funded by: Departament de Medi Ambient i Habitatge (Catalan government). Main researcher: Dr. Lluís Coll (CTFC). Amount: 39.982 €.

5. Publications

5.1. SCI-journals

28. Filotas E., Parrott L., Burton P.J., Chazdon R.L., Coates D.K., **Coll L.**, Haeussler S., Martin K., Nocentini S., Puettmann K.J., Putz F.E., Simard S.W., Messier C. 2013. Viewing Forests through the Lens of Complex Systems Science. *Submitted*.
27. Ameztegui, A., **Coll L.** 2013. Unraveling the role of microsite conditions on plant performance along altitudinal gradients: an experience with four co-existing mountain species. *Submitted*.
26. Balandier P., Marquer A., Casella E., Kiewitt A., **Coll L.**, Wehrlen L., Harmer R. 2013. Architecture, cover and light interception by bramble (*Rubus fruticosus*), a common understorey weed in temperate forests. *Forestry* 86(1): 39-46.
25. **Coll L.**, Camarero J.J., Martínez de Aragón, J. 2012. Fine roots seasonal dynamics, plasticity and mycorrhization in two coexisting Mediterranean oaks with contrasting aboveground phenology. *Ecoscience* 19(3): 238-245.
24. Puerta C., Espelta J., Sánchez-Humanes B., Rodrigo A., **Coll L.**, Brotons L. 2012. History matters: previous land use changes determine post-fire vegetation recovery in forested Mediterranean landscapes. *Forest Ecology and Management* 279: 121-127.
23. Ameztegui A., **Coll L.**, Benavides R., Valladares F., Paquette A. 2012. Understorey light predictions in mixed conifer forests: role of aspect-induced variation in crown geometry and openness. *Forest Ecology and Management* 276: 52-61.

22. Martín-Alcón S., **Coll L.**, Aunós A. 2012. A broad-scale analysis of the main factors determining the current structure and understory composition of a sub-alpine (*Pinus uncinata* Ram.) forest. *Forestry* 85(2): 225-236.
21. Puerta-Piñero C., Brotons L., **Coll L.**, González-Olabarria J.R. 2012. Valuing acorn dispersal and resprouting capacity ecological functions to ensure Mediterranean forest resilience after fire. *European Journal of Forest Research* 131: 835-844.
20. Ameztegui A., **Coll L.** 2011. Tree dynamics and coexistence in the montane-subalpine ecotone: the role of different light-induced strategies. *Journal of Vegetation Science* 29(6): 1049-1061.
19. **Coll L.**, Schneider R., Berninger F., Domenicano S., Messier C. 2011 Quantifying the effect of nitrogen induced physiological and structural changes on poplar growth using a carbon-balance model. *Tree Physiology* 31: 381-390.
18. Domenicano S., **Coll L.**, Messier C., Berninger F. 2011. Nitrogen forms affect root structure and water uptake in the hybrid poplar. *New Forests* 42(3): 347-362.
17. Ammer C., Balandier P., Scott-Bentsen N., **Coll L.**, Löf M. 2011. Forest vegetation management under debate: an introduction. *European Journal of Forest Research* 130: 1-5.
16. **Coll L.**, González-Olabarria J.R., Pukkala T., Messier C. 2011. Predicting understory maximum shrubs cover using altitude and overstory basal area in different Mediterranean forest. *European Journal of Forest Research* 130: 55-65.
15. Martín-Alcón S., González-Olabarria J.R., **Coll L.** 2010. Stand attributes and location define wind and snow damage in conifer mountain forests in the Eastern Pyrenees. *Silva Fennica* 44(3): 399-410.
14. Améztegui A., Brotons L., **Coll L.** 2010. Land-use changes as major drivers of Mountain pine (*Pinus uncinata* Ram.) expansion in the Pyrenees. *Global Ecology and Biogeography* 19: 632-641.
13. Messier C., **Coll L.**, Poitras-Larivière A., Bélanger N., Brisson J. 2009. Resource and non-resource root competition effects of grasses on trees of different successional status. *Journal of Ecology* 97(3): 548-554.
12. **Coll L.**, Potvin C., Messier C., Delagrange S. 2008. Root architecture and allocation patterns of eight native tropical species with different successional status used in open-grown mixed plantations in Panama. *Trees* 22: 585-596.
11. Delagrange S., Potvin C., Messier C., **Coll L.** 2008. Linking multiple-level tree traits with biomass accumulation in native tree species used for reforestation in Panama. *Trees* 22: 337-349.
10. Brooker R.W., Maestre F.T., Callaway R.M., Lortie C.L., Cavieres L.A., Kunstler G., Liancourt P., Tielbörger K., Travis J.M.J., Anthelme F., Armas C., **Coll L.**, Corcket E., Delzon S., Forey E., Kikvidze Z., Olofsson J., Pugnaire F., Quiroz Q.L., Saccone P.,

- Schiffers K., Seifan M., Touzard B., Michalet R. 2008. Facilitation in plant communities: the past, the present and the future. *Journal of Ecology* 96: 18-34.
9. Balandier P., Sinoquet H., Frak E., Giuliani R., Vandame M., **Coll L.**, Prévosto B., Curt T. 2007. Light use efficiency, carbon gain and growth of beech seedling (*Fagus sylvatica* L.) planted under Scots pine shelterwood. *Tree Physiology* 27: 1073-1082.
 8. **Coll L.**, Messier C., Delagrange S., Berninger F. 2007. Growth, allocation and leaf gas exchanges of hybrid poplar plants in their establishment phase on previously forested sites: effect of different vegetation management techniques. *Annals of Forest Science* 64: 275-285.
 7. Picon-Cochard C., **Coll L.**, Balandier P. 2006. The role of below-ground competition during early stages of secondary succession: the case of 3-years-old Scots pine (*Pinus sylvestris* L.) seedlings in an abandoned grassland. *Oecologia* 148: 373-383.
 6. Berninger F., **Coll L.**, Vanninen P., Mäkelä A., Palmroth S., Nikinmaa E. 2005. Effects of tree size and position on pipe model ratios, Scots pine. *Canadian Journal of Forest Research* 35(6): 1294-1304.
 5. Curt T., **Coll L.**, Prévosto B., Balandier P., Kunstler G. 2005. Plasticity in growth, biomass allocation and root morphology in beech seedlings as induced by irradiance and herbaceous competition. *Annals of Forest Science* 62: 51-60.
 4. **Coll L.**, Balandier P., Picon-Cochard C. 2004. Morphological and physiological responses of beech (*Fagus sylvatica* L.) seedlings to grass-induced belowground competition. *Tree Physiology* 24: 45-54.
 3. Cochard H., Nardini A., **Coll L.** 2004. Hydraulic architecture of leaf blades: where is the main resistance? *Plant Cell and Environment* 27: 1257-1267.
 2. **Coll L.**, Balandier P., Picon-Cochard C., Prévosto B., Curt T. 2003. Competition for water between beech seedlings and surrounding vegetation in different light and vegetation composition conditions. *Annals of Forest Science* 60: 593-600.
 1. Cochard H., **Coll L.**, Le Roux X., Améglio T. 2002. Unraveling the effects of plant hydraulics on stomatal closure during water stress in walnut. *Plant Physiology* 128: 282-290.

5.2. Book-chapters

2. Nocentini, S., **Coll L.** 2013. Mediterranean forests: human use and complex adaptive systems
In: Messier C., Puettmann K.J. & Coates K.D. (Eds.) *Managing Forests as complex adaptive systems. Building resilience to the challenge of global change*. The Earthscan Forest Library (series). Routledge.
1. **Coll L.**, Navarro-Cerrillo R., Vericat P. 2009. A Review of Forest Vegetation Management Practices in Spain. In: *Forest Vegetation Management Practices in Europe*, McCarty N., Willoughby I., Balandier P (Eds). COST office, Brussels, pp: 131-138.

5.3. Non-SCI articles

6. Management activities

6.1. Research responsibilities:

- Head of the Forest Functioning and Dynamics Unit at the Forest Technology Centre of Catalonia (CTFC). 2007-present.
- Co-responsible of the “Gestió Multifuncional d’Ecosistemes Forestals Mediterranis” group of the CTFC recognised as “Consolidate Research Group” by the Generalitat de Catalunya (Catalan government)
- Representative of Spain in the COST action E-47: European Network for Forest Vegetation Management: Towards Environmental Sustainability. 2006-2009.

6.2. Organisation of conferences and research workshops:

- Organiser of the seminar: “Disturbance and resilience in Mediterranean forest ecosystems”. 8 June 2012. Solsona (Spain).
- Member of the scientific committee of the IUFRO Conference: Restoring Forests: Advances in techniques and theory. 27-29 September, Madrid (Spain).
- Member of the scientific committee of the International COST Conference in Forest Vegetation Management - Towards Environmental Sustainability. 4-8 May 2009. Vejle (Denmark).
- Organiser of the workshop: “Avances recientes en la ecología funcional de las plantas: aplicación en la gestión de los ecosistemas”. 3 August 2007. Solsona (Spain).

7. Teaching experiences

- Main lecturer of the course *Functional ecology of forest ecosystems* of the Master in Forestry funded by the AECID (Agencia Española de Cooperación Internacional para el Desarrollo) and organised by the University of Lleida (Spain) and the University Gabriel Rene Moreno of Santa Cruz (Bolivia). Total: 25 hours. 2009.
- Main lecturer of the course *Forest Planning*. School of agricultural and forestry engineering of Lleida. University of Lleida (Spain). Total: 45 hours (1 season). 2009.
- Invited lecturer of the course ‘Trends of the forest sector in a global change context’ of the master in Forestry organised by the University of Lleida (Spain). Lecture: ‘Ecological responses of vegetation in a global change context’. Total 4 hours. 2008, 2009 and 2010.
- Co-lecturer of the course ‘Tropical Ecology’ of the master in Environmental Sciences of the University of Québec at Montréal (UQAM), Canada. Total: 18 hours. 2004.

- Invited lecturer of the course 'Forest Ecology' in the master in Biology Sciences of the University of Québec at Montréal (UQAM), Canada. Total: 4 hours. 2004 and 2005.

8. Other research activities

8.1. Supervision of research fellows:

- Aitor Améztegui González. PhD. Dinámica i ecología de los ecotonos en los bosques de montaña del macizo pirenaico. University of Lleida, Spain (present).
- Santiago Martín Alcon. MSc thesis. Las características silvícolas del rodal y su localización como factores definitorios del daño causado por el viento y la nieve en los bosques de coníferas de montaña de los Pirineos orientales. University of Lleida. 2009.
- Aitor Améztegui González. MSc thesis. Influencia de los cambios de uso del suelo en la expansión del pino negro (*Pinus uncinata* Ram.) en el Pirineo catalán durante la segunda mitad del siglo XX. University of Lleida. 2009.
- Alex Fortuny Zafra. Graduate thesis (BSc Forestry). Efecte de la densitat i el microhàbitat en la depredació i germinació de les glans del roure cerrioide. University of Lleida. 2008.
- Amélie Poitras Larivière (co-direction with Christian Messier). MSc thesis. Compétition racinaire pour l'espace entre la végétation herbacée et des jeunes arbres de plantations. University of Quebec at Montréal (UQAM). 2006.

8.2. Editorial experience and refereeing activities:
